# Hydraulic Hose

## Braided/Spiral Hose

## Special Application Hose

- Arctic Grade
- High Temp
- Extreme Pressures
- Abrasion Resistant
- Hose Bundles

## DOT Approved

## Stainless Steel / Teflon

## Thermoplastic

ARG stocks JIC, ORS, Boss O-ring and NPT adapters.

We have a large selection of metric, British, JIS, code 61, code 62 and CAT flanges.

## Adapters & Quick Connectors

### Adapters

ARG stocks the most common fittings SAE and NPT. We have a large selection of metric, British, JIS, code 61, code 62 and CAT flanges.

### Quick Disconnects

ARG has a complete selection of quick disconnect couplers for every application.

# Capabilities

## Cleaning

What damages 90% of hydraulic systems? The answer is new hose. There are residuals left in a new hose when it is built. These are either metal or rubber that clog your filters and can damage the internals. ARG cleans every new assembly to an ISO 13/10 specification and seals the ends so no contamination can get in and damage your system.

## Testing

NAHAD suggests that each new assembly be pressure tested at 200% of the maximum allowable working pressure. ARG has state of the art test facilities and capabilities, and

performs pressure testing up to 30,000 psi at the customer's request.

## RFID Tagging

ARG has the ability to install a RFID chip on every hose assembly we supply. This will allow you to access our web page to see exactly when the hose was made, how long it has been in service and the last time it was tested.

All tested assemblies are fitted with RFID chips for field identification and cert tracking.

# Hydraulic Hose

ARG has been supplying custom hydraulic hose assemblies since 1969. You can call in or email your order to our expert staff. We build custom assemblies to your specifications. Call in your order for pickup, delivery, shipment, or just stop by one of our showrooms and have an assembly built while you wait. We excel in fabricating quality hose assemblies for every type of application from garden hose to 10,000 psi and everything in between.
